EDUCATION

University of San Francisco (USF), San Francisco, CA
B.S. in Computer Science

May 2020

WORK EXPERIENCE

Boonoob, San Francisco, CA (Remote)

Jun 2020 - Present

Software Engineer

- Created REST web API endpoints on the server to handle multiple HTTP requests, done in Node.js.
- Collaborated with production team to create customer friendly features, increasing the number of users.

Fanmire, San Francisco, CA

Jan - May 2020

Software Engineer

- Developed a dynamic website featuring a social media aggregator that pulls a user's posts from Twitter, Facebook, and Instagram, stores data into MongoDB, and displays all onto a single, elegant news feed.
- Created the server, social media scraper, and client and produced the user interface using Vue.js, Javascript, Node.js, Express, Axios, and HTML/CSS.

ThinQ.tv, San Francisco, CA (Remote)

May - Aug 2019

UX/UI Engineering Intern

- Collaborated with the front-end team to design an elegant, effective, and functional user interface.
- Adapted design according to user tests and problem solving to improve number of audience members.
- Worked on front-end code to construct a webpage that is easy for users to navigate and continually visit.

NOTABLE PROJECTS

Twitter React App v1.0

July 2020 - Present

- Created a replica of Twitter web app using React.js. My app provides basic post, like, and retweet functionality and a rich, interactive, and well-performing user interface which looks identical to Twitter.
- Improved React skills using reusable components, routing, all device responsiveness, and care to detail.

Elijah Delos Reyes | Frontend Engineer (Portfolio)

May - June 2020

- Developed my personal website and portfolio featuring a minimalistic design, optimized for all devices.
- Designed with Adobe XD, built using HTML/CSS/JS and Jekyll, and hosted on Github Pages.

Pizza Ordering Application (Personal)

Jun Oct 2017

- Did full-stack development on a Java Swing application dealing with databases and user inputs.
- Designed interactive user-friendly GUI of 38 items including a variety of pizzas, sides, drinks, etc.
